Basic Nursing Assistant Nura-1190 Basic Nursing Assistant Training

This course is designed to instruct students in becoming Basic Nursing Assistants. The course provides the essential knowledge and skills to provide basic care and skills to resident/clients of healthcare facilities; including such topics as resident rights, communication, safety, observation, reporting and assisting resident/clients in maintaining basic comfort and safety. Upon completion of the course, the student will arrange to take a written or oral examination and will demonstrate skill competency. It is designed to meet the training requirements of the federal and Nebraska state law for nursing assistants working in licensed facilities.

Date: TBD

Location: Alliance Campus

Medication Aide Alh1-2190

This course is designed to instruct the experienced Nurse's Aide to assume the role of Medication Aide, who has a beginning knowledge of medication administration and pharmacology. Upon completion of the course, the student will be eligible to sit for an exam administered by the Department of Health. Successful completion of this exam will approve the student as a Medication Aide.

Date: TBD

Location: Alliance Campus
