

ANTHROPOLOGY
Scottsbluff/Sidney/Alliance

AA.4502 (61-63 Credits)

The Anthropology emphasis area provides students with a general understanding of the role of culture as well as a comparison of different cultures. The study of anthropology tends to develop nonjudgmental attitudes toward less technologically developed societies and reduce ethnocentrism.

Objectives

- Develop an understanding of the central concepts and terminology of the study of anthropology.
- Develop knowledge of different cultures.
- Develop an understanding of inter-relationships between society and culture.
- Develop a better comprehension of American culture and us.

Notes

- Students who plan to transfer to a four-year college/university should consult their faculty advisor and the Transfer Advisor early in their WNCC enrollment to determine their curriculum.
- If the transferring institution does not require foreign language, the student may take other social science or elective courses.
- Humanities electives can be taken from art, literature, music, philosophy, theater and humanities.
- Social Science electives can be taken from Anthropology, Economics, Geography, History, Philosophy, Political Science, Psychology or Social Science courses.
