

FORESTRY WILDLIFE MANAGEMENT (PRE)

Scottsbluff Campus

AS.0305 (64-65 Credits)

Participants in this emphasis area are provided with a background that enables them to pursue a course of study in a college or university that offers degree programs in the fields of forestry and/or wildlife management.

Objectives

- Provide the student with knowledge of the physical and biological science courses prerequisite for entrance into forestry and wildlife management programs.
- Make the student aware of the importance of a career dealing with the care and management of our renewable resources.
- Provide an educational experience that allows the student to complete the transition to a four-year college or university with relative ease.

Notes

- Students who plan to transfer to a four-year college/university should consult their faculty advisor and the Transfer Advisor early in their WNCC enrollment to determine their curriculum.
- Some students may find it more practical to substitute PHYS-1300 for BIOS-1100 and continue with PHYS-1350.
