

PHYSICS

Scottsbluff Campus

AS.4008 (65 Credits)

This field of study provides the student with comprehensive knowledge of the principles and skills related to physical science. The field of study is designed to meet the needs of students entering related technical or professional fields, as well as those seeking a general understanding of the physical world.

Objectives

- Provide a basic understanding of physical principles and the interrelationships of all branches of science and mathematics.
- Show how all phenomena is the logical result of the laws of nature.
- Stimulate interest in physics and fields related to physics.
- Develop skills in the use of the scientific method and the use of tools for measuring and collecting data.
- Provide the student with the background needed to increase the chances for success in the technical or professional fields.

Notes

- Students who plan to transfer to a four-year college/university should consult their faculty advisor and the Transfer Advisor early in their WNCC enrollment to determine their curriculum.
